Skills

iOS Development

Swift, Swift UI, UIKit, Combine, Concurrency, iOS Design Principles, Interface Design, Mobile App Architecture

Media & Casting

AVPlayer

Database

Core Data, Swift Data

Software Development

Clean Code, Agile, Scrum, Git, JIRA

CI/CD

Unit/UI Test Automation (XCTest, XCUITest), TestFlight Deployment, Fastlane

Mobile Architecture

MVC, MVVM, Viper

Education

Master of Science in Computer Science (Last Semester)

Passau University, Germany
04/2023

Bachelor of Science in Computer Science

Kabul Polytechnic University
03/2013 – 12/2016

Languages

English (Professional, C1)

German (Basic, A2)

Certificates & Awards

Employment Excellence Award

(Moore Global, 2021)

Inclusive Real-Time Payment System
2020

Student Achievement Award

(Fukushima University, 2013)

Experience

Software Developer (Jul 2024 – Jun 20205)

Siemens Mobility – Munich (Part Time – Remote)

Mobile Apps – React native & Swift

- Debugged and enhanced security and **UI/UX** across multiple internal mobile applications.
- Integrated **RESTful APIs** to enable LLM-powered features within mobile apps.

Web Extensions – React, TypeScript

- Designed and developed a local web extension for LLM usage, now deployed all Siemens Mobility employees.
- Integrated multiple **LLMs, including ChatGPT-4.0, Llama, Mistral, and Siemens GPT.**
- Implemented **RAG** pipelines for PDF-based retrieval and contextual responses.

iOS Developer (Jul 2018 – Dec 2022)

Moore Global – Kabul (Full Time – On Site)

HesabPay – Swift, MVVM, CoreData, Firebase, CocoaPods

- Led the development and architecture design of the HesabPay Banking application, serving over **100,000 iOS** users.
- Integrated third-party frameworks including **Firebase Cloud messaging, Phone Auth, Analytics, IDWise, AFPay, CocoaPods.**
- Wrote comprehensive interface and backend test cases, achieving a **99.7% bug-free** rate according to **Firebase analytics.**

BBR Taxi – Swift, MVVM, Google Maps, Socket.io

- Contributed to the development and architecture of the BBR Taxi app.
- Implemented **Google Maps** and **Socket.io** for real-time data management and tracking.

Android Developer (Jan 2017 – Mar 2018)

Knight Software Development – Kabul (Full Time – On Site)

City Magazine – Java, REST api, PDF, Facebook SDK, Google SDK

- Developed City Magazine Android app from scratch using **Java** and **Android Studio, integrating REST APIs**, and third-party frameworks.
- Enabled PDF viewing for content distribution, and maintained the app by **fixing bugs** and adding **new features.**
- Collaborated with cross-functional teams, including product managers, and QA testers, to ensure high-quality deliverables.

Software Developer (Jan 2016 – Dec 2016)

Smartech Software Development - Kabul (Full Time – On Site)

- Design and developed the **Smartech Inventory Management mobile** application.
- Collaborated with the team to **brainstorm** solutions and provide technical support throughout the mobile app development lifecycle.

Software Intern (Sep 2015 – Dec 2015)

CodeZone LTD – Kabul (Fulltime – On Site)

- Learned the fundamentals of mobile app development and the **software development lifecycle.**
- Gained hands-on experience through **research, documentation, and supporting project tasks.**
